

IPL Systems Australia

Online Training Course Info for
Cavitation, Vacuum and Radio
Frequency Systems

Background

The popularity of Cavitation and Radio Frequency systems has increased manifold over the last 2 years, and machines from overseas, mainly China, can be easily imported.

Unfortunately, they are supplied with manuals very often written in poor English, lack basic values for operators in regards to applications, and are very hard to understand for owners not trained in any aspect of beauty therapy or skin knowledge.

Without adequate training the use of these systems is unfortunately on a trial and error base, where the errors are being borne by clients as these machines can burn skin.

1. There are no State Government regulations for the use of Cavitation Systems.
2. Our course is a Certificate Course – not a Government Accredited Course.

1. IPL Distance Learning Program

This Training Product is a 62 page PowerPoint presentation, and aims to raise the general level of knowledge of Cavitation systems, as well as focusing applications these systems are designed to perform.

The program uses the internet and communicates by email facilities only.

2. Tests

Each module has a Multiple Choice Questionnaire to be answered by the participant.

3. Time / Duration of Course

There is not time restraint on the completion of this course. Participants will be able to work at their own pace, thus allowing them to determine their own timeframe in which to receive certification.

4. Certificate

After successful finishing all modules and answering multiple question of at least 80% , we will issue a Certificate, stating that the Participant has successfully complete an Online Course as a Technician for Cosmetic Treatments with Cavitation, Vacuum and Radio Frequency Systems.

5. Costs

The cost for a complete Online Training Course is \$ 600.00, plus tax, payable in advance.

A Contract of Sale and a Tax Invoice will be provided.

6. Ownership of the Course Material

The Distance Learning Program is copyrighted to **IPL Systems Australia** and remains their intellectual property. Course participants are licensed to the limited use of using this material solely for the purpose of achieving Certification. **IPL Systems Australia** retains all right, title and interest, including all copyright and intellectual property rights, in and to the Distance Learning Program and all copies thereof.

License infringements will be prosecuted to the full extent of the law.

7. License Restrictions

7.1 You may not make or distribute copies of the Online Training Course, or electronically transfer the Online Training Course from one computer to another or over a network.

7.2 You may not alter, merge, modify, adapt or translate the Online Training Course, or decompile, reverse engineer, disassemble, or otherwise reduce the Online Training Course

7.3 Unless otherwise provided herein, you may not sell, rent, lease, or sublicense the Online Training Course

8. Disclaimer

8.1 There are a multitude of different Cavitation systems on the market, each with different settings, different hand pieces, different filters, different cooling systems and different electrical energy strengths.

Even though the technical aspects of Cavitation and Radio Frequency are always the same, in practical application there are vast differences.

We are unable to knowing specifications of every system on the market. Should participants want to have their online training program geared towards a system of their own, we do need to see a copy of the manufacturer's manual in order to understanding particular Systems.

8.2 Since the Online Training Course is not a hands-on training program, we will not be held responsible for participant's use of their Cavitation systems on their clients or on themselves. We explicitly will not be held responsible any damages in regards to use of Cavitation and RF systems by participants.

8.3 There is no refund mechanism for Online Training charges and costs for failing the course, or achieving less than 80% of the multiple choice question.

*Are you interested in a new IPL System and do you want free training?
We include 2 days theoretical and hands-on training with the purchase
of our new IPL, E-Light and RF Systems!
At your place, for up to 5 people, Australia-Wide
